

HYGIENE CONSULTING SOLUTIONS INC.

## Why should you hire Hygiene Consulting Solutions?

---

**You are already spending money to maintain your restrooms**, and probably close to the amount it would cost you to have us do it for you. We have the tools, the experience, and the knowledge, but most importantly....we WANT to do it and we are ecstatic to have the job, we literally dream about sparkling clean restrooms!! (Try getting your employees this excited about cleaning the restrooms, fat chance)

**Contracts? What Contracts?** Let us be crystal clear on this, WE DO NOT HAVE CONTRACTS WITH ANY OF OUR CUSTOMERS. We believe we are only as good as our last service. Our customers see us as partners and an integral part of their businesses because they find great value in the service we provide, we save them time, aggravation, and help make them more efficient.

**What's the Risk? No really, what's the risk?** Since we do not do contracts we have eliminated all the risk. Have us in for one cleaning, if you are not satisfied then don't have us back....but we're pretty sure you will have us back so guess what? THE FIRST CLEANING IS ON US!

**Your employees did not get a position at your business so they could clean restrooms** so what kind of effort do you think they will put into it? Is the effort good enough for your customers? Is it good enough for you?

**You do not have the time or the resources to get your restrooms to the level of clean you, your employees, and your customers deserve.** Turn your restrooms over to us and you will NEVER have to worry about another complaint about your restrooms EVER AGAIN!

**Your customers will return more often** if your restrooms are spotless! This is a fact; study after study and survey after survey show that businesses lose customers because of a poor restroom experience.

**In today's economy it just makes sense to evaluate anything that could save you money or make you more efficient**.....wouldn't you agree? Our program reduces your labor, increases cleanliness and saves money on other products that you are purchasing now anyway.
